

2015

ANNUAL
REPORT

TRANSFORMING
LIVES
& COMMUNITIES

LETTER TO OUR COMMUNITY

Dear Friends of The LCADA Way,

In 2015, The LCADA Way experienced a year of unprecedented growth, exciting challenges and strategic accomplishments.

Having primarily served Lorain County for over 34 years, we find ourselves expanding into surrounding communities seeking our services. This past year, the city of Medina was gracious in welcoming us into their community, and in collaboration with area leaders, we opened the Medina Wellness Center, a vibrant health care facility for individuals and families to access our services in a convenient and supportive atmosphere.

Throughout our neighborhoods we've witnessed a significant increase in opiate-addicted individuals needing our help. To support and combat this increase, we've implemented research-based models of care with services specifically tailored to meet the needs of each struggling individual. Working together with families, caregivers, first responders and law enforcement, our goal is to reduce and hopefully to eradicate this disease from our area.

Strategically, and in support of our expanding coverage area, we decided to rebrand LCADA to better reflect the agency's unique approach in serving our growing communities and customers. In the Fall, we rebranded our organization from LCADA (The Lorain County Alcohol and Drug Abuse Services) to The LCADA Way, to better reflect our leadership in recovery solutions, centered around and supported by our passion, awareness, dedication and advocacy. Focusing our name and messaging allows us to better serve the community and help individuals on the road to wellness and recovery. Our goal is to unify everything we do under The LCADA Way as a first-class wellness, prevention, treatment, education and recovery service agency.

Our 2015 fund raising efforts were strong, thanks to the generous support of our donors, sponsors and caring individuals, highlighted by our annual Pearls of Wisdom Annual Reception Dinner, an overwhelming success raising over \$56,000. Attendees were delighted to hear from former Cleveland Browns offensive lineman and our Honorary Chair Dan Fike, along with world-renowned comedian Mark Lundholm as our keynote speaker.

We want to express our sincere thanks to you, our friends, who have supported us through the years - you play a key role in helping improve the lives of individuals and families struggling with addiction. We also thank The LCADA Way Board of Directors for their leadership and support; our partners in the community whose combined efforts have helped The LCADA Way save lives and reunite families; and to our loyal and dedicated staff, who diligently continue to stretch and find innovative treatment delivery methods, insuring that the individuals and families we serve receive the highest-quality care possible.

All the best,

Thomas D. Stuber

PRESIDENT/CEO

Thomas D. Stuber

We offer our deepest gratitude for their dedication and commitment to The LCADA Way.

OUR MISSION

To transform individual lives, families, and communities suffering from alcohol abuse, substance abuse and behavioral health issues.

OUR VISION

To develop The LCADA Way as a Center of Clinical Excellence for education, prevention and treatment of alcohol abuse, substance abuse and behavioral health issues.

OUR COMMITMENT

EMPATHY & RESPECT

We approach each individual in our program with compassion, care and understanding. This foundation of empathy and respect is at the heart of everything we do.

INNOVATION & RESULTS

Success is vital to our mission and to the people we serve. Every day we bring new ideas, energy and knowledge to strengthen our programs and organization so that we continually make a difference in the communities we serve.

FAMILY & COMMUNITY

Central to The LCADA Way is the belief in family and community. Every individual touches and is touched by the people around us. These relationships strengthen and enhance our lives every day.

A YEAR IN REVIEW

Re-Branding to The LCADA Way

Lorain County Alcohol And Drug Abuse Services transformed its brand to The LCADA Way to reflect its evolution and growth.

The rebranding to The LCADA Way highlighted the agency's unique approach centered around Leadership, Compassion, Awareness, Dedication & Advocacy ("LCADA") allowing the agency to serve the community and help individuals on the road to wellness and recovery. We have served Lorain County and surrounding areas for more than 34 years with plans to continue expanding throughout Northeast Ohio.

The LCADA Way remains dedicated to transforming individual lives, families and communities suffering from alcohol abuse, substance abuse and behavioral health issues and developing itself as a Center of Clinical Excellence for education, prevention and treatment. The LCADA Way developed its brand pillars to be reflective of its ongoing dedication to the community and the individuals it serves:

PROVEN RESULTS. HEALTHY LIVES.

It's simple. Our programs work. We guide our clients through a process of recovery and create more healthy lives for themselves and their families.

SUPPORT. EDUCATION. RECOVERY.

Our comprehensive, results-oriented programming focuses on the individual and strengthens families and communities.

LEADING THE WAY.

We are leaders in our field. You can trust our results that tomorrow can hold the promise of a better future.

Expansion of Recovery Housing Resources

The LCADA Way is a progressive partner in many community collaborations to acquire and promote the most efficient and effective treatment services. It partners with local recovery homes to promote drug free living for individuals in treatment.

Realizing that opiate-addicted individuals need a longer period in treatment and a supportive sober environment in order to sustain their recovery, The LCADA Way partnered with Primary Purpose and was awarded a grant from The Ohio Department of Mental Health and Addiction Services. The grant allowed for the implementation of a 60 bed recovery housing facility in Sheffield Township. The Primary Purpose Men's Housing Facility is scheduled to open in July 2016 and will provide quality sober living to substance abuse men and to educate and assist with recovery from drug and alcohol addiction. The recovery center will provide safe, organized and structured methods to effectively achieve sobriety.

The LCADA Way opens Its Medina Wellness Center

The LCADA Way collaborated with the Medina County Drug Abuse Commission, Medina County Courts, Job and Family Services, and Children Services to open its Medina Wellness Center in November 2015. The Wellness Center is a vibrant health care facility for individuals and families to access services in a convenient and supportive atmosphere.

REPRESENTATIVES OF MEDINA COUNTY AND THE LCADA WAY AT THE MEDINA WELLNESS CENTER OPEN HOUSE.

With the increase in opiate-addicted individuals seeking our services, The LCADA Way implemented a research-based model of care with services specifically tailored to meet individual client's needs. Medication Assisted Treatment is made available to assist individuals in their recovery. Specialized relapse treatment services are also provided focusing on the dynamics that lead to an individual's relapse and the development of an effective relapse prevention plan.

Since opening its doors in November 2015, the Medina Wellness Center has provided services to over 60 individuals. Among other services, the Center offers Assessment, Day Treatment, IOP, Individual Counseling, Family Programing and Aftercare.

ANNUAL RECOGNITION DINNER

The LCADA Way hosts an annual dinner to recognize community leaders and donors who have been instrumental in supporting The LCADA Way's mission to provide services to those in need within our community.

SERVICES

As a non-profit organization, The LCADA Way develops, provides and promotes these services in Lorain, Medina and surrounding counties.

ASSESSMENT SERVICES

The LCADA Way provides assessment and screening services. These services will help an individual and family determine if there are addiction and/or mental health concerns. If it is a problem, the clinician will help determine the most appropriate care options based on the assessment findings. The LCADA Way uses Clinical Protocols for Levels of Care developed by the American Society of Addiction Medicine (ASAM) and the Ohio Department of Mental Health and Addiction Services (ODMHAS).

INTERVENTION / CARE-VENTION

The LCADA Way is available to provide Care-Vention Services to Families struggling to help a loved one who is abusing drugs or alcohol. The LCADA Way understands that family members often feel frozen and helpless. They don't know what to do to get their loved one to stop using drugs. Through Care-Vention the family: will become empowered to help their loved one see the reality of the consequences of their drug use in a caring way; will learn how to support one another; and will help their loved one make the decision to enter treatment and begin to live a life of recovery.

ADOLESCENT SERVICES

The LCADA Way provides a supportive and caring environment for teens with four types of treatment: Intensive Outpatient Programming, In-Home Family Counseling, Low Intensity Programming and ACRA Programming. Each of these programs utilize research-based models of care. Other services offered include individual and group counseling, education and relapse treatment, and prevention. Transportation is provided.

ACRA (ADOLESCENT COMMUNITY REINFORCEMENT APPROACH)

ACRA is a comprehensive behavioral program for treating substance abuse related problems. It is based on the belief that environmental contingencies can play a powerful role in encouraging or discouraging drinking or drug use. It utilizes social, recreational, familial, and vocational re-enforcers to assist consumers in the recovery process.

WOMEN'S SERVICES - THE KEY

The LCADA Way provides specialized drug and alcohol treatment to women suffering from a substance use disorder. These services include: Residential Treatment to women and their children, Day Treatment, Intensive Outpatient Treatment, Low Intensity Treatment, Trauma Treatment, and Opiate Specific Treatment. The KEY provides a supportive and caring atmosphere for women and their children. The KEY supports recovery from substance abuse 24-hours a day. Services include: Assessment, Individual and Group Counseling, Crisis Intervention, and Education on Alcohol and Drug Addiction, and Recovery. Each client's treatment is individually tailored to her needs. Preschool age children can reside with their mother while she is in treatment. Intensive Outpatient Treatment for women is provided when there are adequate supports available to permit her to receive care on an outpatient basis. Transportation is provided.

PREGNANT/POSTPARTUM

Through a special grant from SAMHSA, The LCADA Way developed comprehensive alcohol and drug treatment services for women who are pregnant or recently given birth. These services include rehabilitation, medical services, parenting training and coaching, vocational/educational placement and training, and assistance with housing supports.

IN-HOME FAMILY COUNSELING

This service can be provided for clients who are engaged in treatment. In-Home counseling enables the clinician to provide outside resources for family needs, track client's abstinence and encourage 12 Step programs for client and family.

THERAPEUTIC CHILDCARE AND PARENTING TRAINING

This program is designed to assess a child's developmental functioning, identify any developmental deficits, and address those deficits in a way that brings the child to age appropriate developmental levels. Services are modeled after Ages in Stages and are provided by a Children's Developmental Specialist. Children receive developmental services while their mother receives parenting coaching.

MEDICATION ASSISTED TREATMENT

The LCADA Way provides medication assisted treatment to individuals struggling to recover from Opiate Addiction. Services are provided through The LCADA Way's Physician who is licensed in Addiction Medicine. Medication assistance may include Suboxone, Vivitrol, or Naltrexone. Clients must meet eligibility criteria and must be participating in primary treatment.

AMBULATORY DETOXIFICATION

The ambulatory detox program was created as a result of the overwhelming need for detox services for those suffering from opiate addiction and the limited availability of detox beds. Ambulatory detox is an outpatient detox service that assists the client through a safe, medically monitored withdrawal from opiates. It includes a complete medical evaluation, medications to ease the distress of physical withdrawal, and immediate placement in the appropriate level of rehabilitation. Residential and Supportive Housing is available for those who struggle while receiving detox services. Clients who require subacute detox services will be assisted with placement in the appropriate medical facility.

MEN'S OUTPATIENT SERVICES

The LCADA Way provides specialized treatment services to men suffering from a substance use disorder. These services include Day Treatment with Supportive Housing, Intensive Outpatient Treatment (IOP), Low Intensity Treatment, Relapse Treatment, and Opiate Specific Treatment. Treatment is designed to facilitate the client's development of skills and tools that leads to sobriety and improved functioning in everyday life. This includes working with a client to accept their illness and recovery and to commit to utilizing sober support systems effectively. Services include Family Education, Family Treatment, Group and Individual Counseling, Relapse Treatment, Aftercare and Low intensity Outpatient Treatment. Specialized Opiate Treatment is available.

RECOVERY HOUSING

In partnership with Primary Purpose and Lorain County Mission, The LCADA Way provides sober housing combined with treatment services for those who require a safe and drug free environment while participating in primary treatment. Those admitted will participate in day treatment services for the first phase of the program. They will be able to stay in the Recovery Housing facilities following the completion of treatment while they continue to adjust to life without drugs. During the second phase, they will be assisted in gaining employment/job skills through our partnership with Minute Man Human Resources and continue to receive ongoing recovery support.

PEER SUPPORTERS/RECOVERY COACHES

The LCADA Way is partnering with Let's Get Real and the Alcohol and Drug Addiction Services Board of Lorain County to provide clients with peer supporters as they begin ambulatory detox and/or participating in the symptomatic/pre-treatment program. As additional Peer Supporters become certified it is our intent to expand their role to include those individuals receiving primary treatment.

INTENSIVE FAMILY TREATMENT

The LCADA Way has recently re-engineered our Family Treatment Services to focus on helping families struggling with an opiate addicted loved one. The program consists of disease and codependency education, family group therapy, and family support groups. Families can access this service even if their loved one is not in treatment at the time. Families can continue with the family support group/alumni group for as long as they find it helpful.

24-HOUR HELPLINE

The LCADA Way provides a 24-hour a day, 7-day a week crisis helpline staffed by trained drug and alcohol treatment professionals. This helpline provides information regarding treatment options, healthcare, social services, and other government agencies that can provide assistance to an individual or family in crisis. These professionals are available to listen and talk through a crisis, anytime of the day or night.

DRUG FREE WORKPLACE SAFETY PROGRAM

The LCADA Way provides consultation and training to Lorain County businesses. We tailor training to the individual company and comply with guidelines provided by the Ohio Bureau of Worker's Compensation. The training is designed to educate management to deal with issues in a way that assists both employee and employer.

DOT-SAP

(Department of Transportation/Substance Abuse Professional)

The LCADA Way plays a critical role in maintaining public safety by facilitating access to a Substance Abuse Professional that is proficient in performing SWI/DUI, Department of Transportation (DOT) and Non DOT evaluations.

TELE-HEALTH COUNSELING

Individual and Family Counseling is available via teleconferencing. Individuals must have access to internet services and have a webcam on their computer. The LCADA Way has contracted for teleconferencing through a firm that insures all appropriate encryption and meets HIPPA requirements.

MENTAL HEALTH COUNSELING

The LCADA Way provides mental health assessment and counseling services for individuals suffering from depression, anxiety, trauma, codependency or other mental health disorders which are not medication driven. A skilled and caring Therapist will assist the individual and family in developing effective coping strategies and/or bringing resolution to the issues that are troubling them.

TRAUMA INFORMED CARE

Unresolved trauma is a common issue among those suffering from substance use disorders. The LCADA Way utilizes Trauma Informed protocols and curriculum provided by Trauma Certified Clinicians to assist our clients with these issues.

COMMUNITY EDUCATION OUTREACH AND PREVENTION SERVICES

The LCADA Way provides a variety of outreach, education and prevention services for Lorain County residents, students, and families. The goal of these programs is to teach individuals how to make the decision not to use alcohol, tobacco, and other drugs, to help young people make healthy decisions and to eliminate high risk behaviors associated with drugs and alcohol. These programs include six ODADAS categories; Problem Identification and Referral, Information Dissemination, Community Based Services, Prevention Alternatives, Educational Services, and Environmental Services.

EDUVENTION SERVICES

The LCADA Way provides this combined education and intervention program to teens and their parents identified through Juvenile Court who have engaged in early use of alcohol and/or other drugs.

BUILDING BLOCKS PREVENTION

Building Blocks provides positive reinforcement to children, 3-6 years old, as they develop problem solving and social skills through interactive learning activities. Staff facilitate the program or can train parents and educators to utilize the program with youth in their lives.

BOTVIN'S LIFESKILLS PROGRAM

The LCADA Way provides in school programming to elementary, middle, and senior high school students using the Botvin's LifeSkills curriculum. This is a 10-14 session curriculum that addresses critical life skills that the child needs. Additional programming specific to opiate and marijuana education/prevention is also included. This programming is critically important in helping students before they are put in a position to make the potentially life changing decisions about experimenting with drugs. Research of the LifeSkills curriculum repeatedly has shown it as an effective model in preventing alcohol and drug use as well as an effective gambling prevention strategy.

SCHOOL BASED PREVENTION MODEL

The LCADA Way provides an Addiction Professional in contracted schools four hours per week. This staff is available for consultation with faculty, parents, and students. Services include: classroom or whole school presentations, education groups, staff trainings, policy review, drop-in hours, problem identification, consultation and referral services. Referrals can be made or they can be accessed through walk-in. Assessments can be provided as well as student education or staff in-services.

SCHOOL LIAISON

In partnership with Communities That Care, The LCADA Way provides support to the schools of Lorain County. This support includes assessing each individual school's needs and priorities and assisting them in connecting with providers who can best meet those needs.

TRANSPORTATION SERVICES

The LCADA Way recognizes that transportation can be a major obstacle to a successful outcome for treatment. To address this, we provide transportation services to and from primary treatment for all adolescent clients, women clients and have just recently begun providing transportation to some of our men clients. Transportation is provided to all engaged in our Medical Services.

MEDICAID ENROLLMENT

Currently one third of individuals seeking services do not have healthcare coverage and are eligible for Medicaid coverage. The LCADA Way provides a Medicaid Enrollment Specialist to assist in navigating the system completing the enrollment process. Services provided to those who have registered for Medicaid can be started immediately and so there is no delay in a person's care.

GAMBLING TREATMENT AND PREVENTION SERVICES

The LCADA Way provides Gambling Assessment and Treatment to those suffering from gambling addiction. These services include: screening, assessment, and individual counseling. Prevention Services are provided through Botvin LifeSkills and community awareness activities highlighting the "95 Percent" campaign designed by the Ohio Department of Mental Health and Addiction Services and the Ohio Lottery Commission.

VOCATIONAL SERVICES

The LCADA Way is partnering with Minute Man Human Resources and Primary Purpose to provide employment training, placement, coaching, and monitoring.

DRUG COURTS

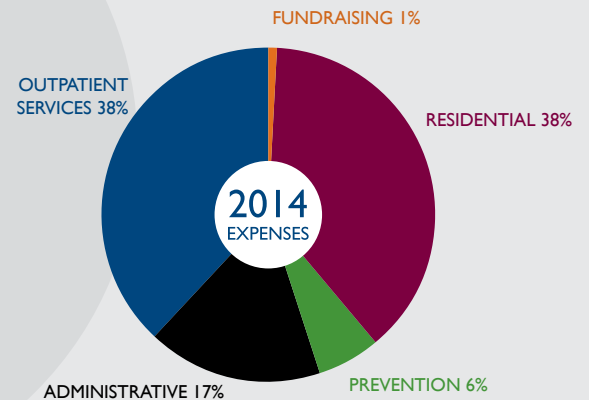

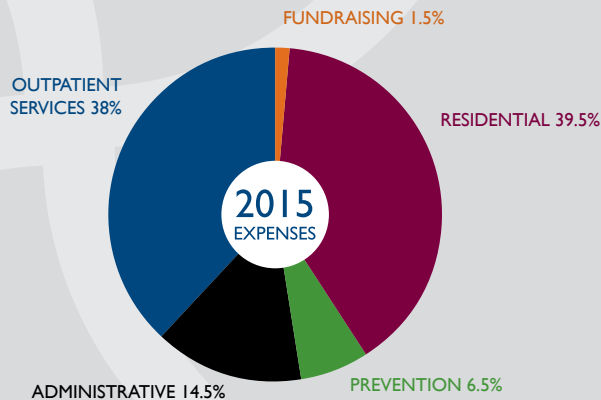

The LCADA Way provides services through both the Lorain and Medina County Family Drug Courts, Recovery Court and Veterans Court.

WAYS TO GIVE

REAL ESTATE

Real estate such as personal residences, farms, vacation homes, commercial and rental property is often the subject of gifts. Like gifts of appreciated securities, gifts of real estate can be attractive because of the double tax benefit – an immediate charitable contribution and the avoidance of capital gains tax.

GIFTS-IN-KIND

Gifts-in-kind are goods and services whose worth cannot necessarily be counted in dollars, but provide an added benefit to the organization.

PLEDGES

Pledges may spread gift payments over a period of years. Many of The LCADA Way supporters have made multi-year pledges to the capital campaign and other avenues of support.

LIFE INSURANCE

You may purchase a new life insurance policy or simply donate a policy that you already hold but no longer need. Designating The LCADA Way as the owner and beneficiary of the policy can provide valuable tax benefits.

CASH

Cash is the simplest and most direct way to contribute to The LCADA Way. You may designate your gift for a specific purpose, or you may choose to leave your gift undesignated to benefit the organization's area of greatest need. Cash gifts generally provide an immediate charitable income tax deduction for the amount of the gift.

PLANNED GIFTS

Planned Gifts are a commitment to the future of The LCADA Way mission. Bequests, gift annuities, life insurance and retirement plan proceeds, and various forms of gifts in trust are examples of planned gifts. You can realize an income tax deduction, avoid capital gains taxation, and reduce or eliminate estate taxes while having a positive impact on The LCADA Way mission.

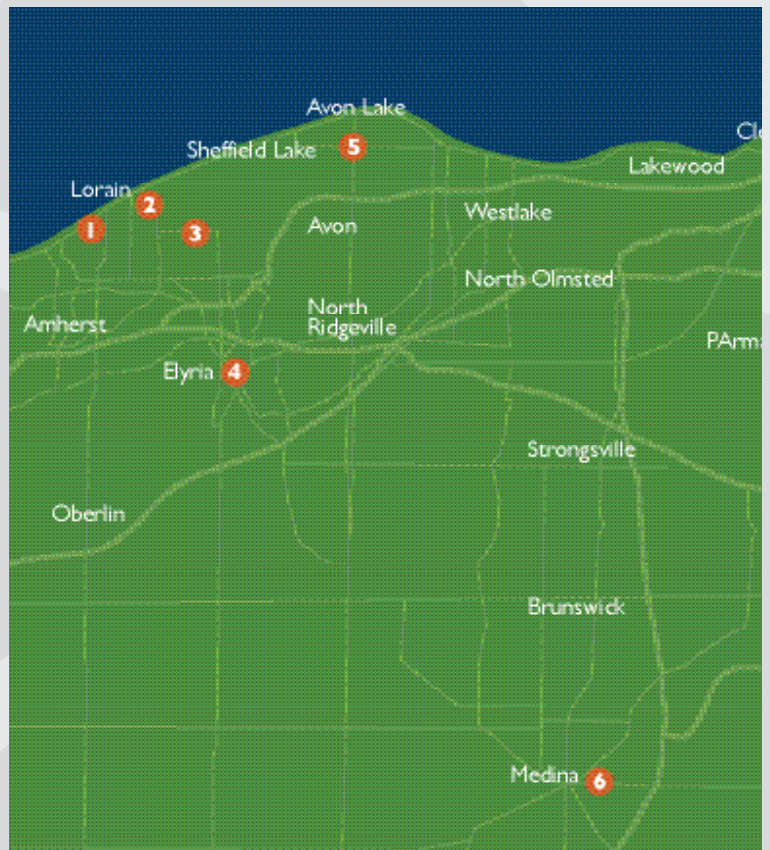

MATCHING GIFTS

Matching Gifts are gifts offered by companies to encourage employees to support nonprofit organizations. Employers will match their employee contributions dollar for dollar, or in some cases, even double or triple the amount of the gift. Forms can be obtained from the Human Resources Department.
